CEO statement

"The second quarter of 2020 was a busy quarter for us. With things gradually coming back to normal on the traffic side, starting from the second quarter of 2020, our teams have stepped up efforts to push toward our long term strategic goals." commented Yan Tang, Chairman and CEO of Momo. "I am glad to see that Tantan has reached a breakthrough with its testing of live video service. With the strength coming from Tantan and the value-added service on the core Momo, we can now focus more on driving structural changes to the core live broadcasting business so that it can grow healthily and steadily in the new macro environment."

Second Quarter of 2020 Financial Results

Net revenues

Total net revenues were RMB3,868.3 million (US\$547.5 million) in the second quarter of 2020, a decrease of 6.8% from RMB4,152.6 million in the second quarter of 2019.

Live video service revenues were RMB2,602.9 million (US\$368.4 million) in the second quarter of 2020, a decrease of 16% from RMB3,099.9 million during the same period of 2019. The decrease was primarily due to the impact of COVID-19 adversely affecting the sentiment of our paying users, especially among the top of the pyramid paying users. Meanwhile, Tantan has been accelerating the testing of its live video service since the middle of April, and live video service revenues from Tantan were 191.7 million (US\$27.1 million) in the second quarter of 2020.

Value-added service revenues mainly include virtual gift revenues and membership subscription revenues. Total value-added service revenues were RMB1,204.3 million (US\$170.5 million) in the second quarter of 2020, an increase of 27% from RMB948.4 million during the same period of 2019. The year-over-year increase was primarily attributable to the continued growth of the virtual gift business on the Momo application driven by more innovative features launched and more paying scenarios introduced to enhance the social entertainment experience of Momo users, and to a lesser extent, the increase in the membership subscription revenues of Tantan.

Mobile marketing revenues were RMB38.0 million (US\$5.4 million) in the second quarter of 2020, a decrease of 50% from RMB76.2 million during the same period of 2019. The decrease in mobile marketing revenues was primarily caused by the decreased demand from our advertising and marketing customers as well as our strategy to underweight the line in terms of resource allocation.

Mobile games revenues were RMB11.6 million (US\$1.6 million) in the second quarter of 2020, a decrease of 50% from RMB23.2 million in the second quarter of 2019. The decrease in mobile game revenues was mainly due to the continued decrease in quarterly paying users of mobile games.

Net revenues from Momo segment decreased from RMB3,865.4 million in the second quarter of 2019 to RMB3,340.7 million (US\$472.8 million) in the second quarter of 2020, primarily due to the decrease in net revenues from live video service, partially offset by the increase in net revenues from value-added service. Net revenues from Tantan segment increased from RMB284.8 million in the second quarter of 2019 to RMB517.2 million (US\$73.2 million) in the second quarter of 2020, which was mainly due to the increase in net revenues from live video

service.

Cost and expenses

Cost and expenses were RMB3,146.9 million (US\$445.4 million) in the second quarter of 2020, a decrease of 7.1% from RMB3,386.8 million in the second quarter of 2019. The decrease was primarily attributable to: (a) a decrease in share-based compensation expenses due to the related expense from the options granted to Tantan's founders in the amount of RMB323.7 million charged in the second quarter of 2019 when the necessary performance conditions were satisfied; (b) a decrease in revenue sharing with broadcasters related to our live video service. The decrease was partially offset by an increase in marketing and promotional expenses to attract users on Tantan, and an increase in revenue sharing with virtual gift recipients for our virtual gift service.

Non-GAAP cost and expenses (note 1) were RMB2,923.7 million (US\$413.8 million) in the second quarter of 2020, an increase of 2.0% from RMB2,866.7 million during the same period of 2019.

Other operating income

Other operating income was RMB91.3 million (US\$12.9 million) in the second quarter of 2020, a decrease from RMB161.9 million during the second quarter of 2019. The decrease was mainly due to less government incentives received in the second quarter of 2020.

Income from operations

Income from operations was RMB812.7 million (US\$115.0 million) in the second quarter of 2020, compared to RMB927.7 million during the same period of 2019. Income from operations of Momo segment was RMB945.3 million (US\$133.8 million) in the second quarter of 2020, decreasing from RMB1,354.4 million in the second quarter of 2019. Loss from operations of Tantan segment was RMB125.6 million (US\$17.8 million) in the second quarter of 2020, compared to loss from operations of RMB431.4 million in the second quarter of 2019.

Non-GAAP income from operations (note 1) was RMB1,035.8 million (US\$146.6 million) in the second quarter of 2020, compared to RMB1,447.9 million during the same period of 2019. Non-GAAP income from operations of Momo segment was RMB1,102.6 million (US\$156.1 million) in the second quarter of 2020, decreasing from RMB1,488.5 million in the second quarter of 2019. Non-GAAP loss from operations of Tantan segment was RMB62.4 million (US\$8.8 million) in the second quarter of 2020, compared to non-GAAP loss from operations of RMB47.9 million in the second quarter of 2019.

Income tax expenses

Income tax expenses were RMB443.6 million (US\$62.8 million) in the second quarter of 2020, increasing from RMB283.9 million in the second quarter of 2019. The increase in income tax expenses was mainly due to the payment of withholding income tax of 10% on dividends distributed by our wholly-foreign owned enterprise ("WFOE") in China to our offshore entity in the second quarter of 2020. The dividends of RMB2,200.0 million (US\$311.4 million) and withholding income tax of RMB220.0 million (US\$31.1 million) were paid in the second quarter of 2020.

Net income

Net income was RMB455.5 million (US\$64.5 million) in the second quarter of 2020, compared to RMB731.1 million during the same period of 2019. Net income from Momo segment was RMB586.7 million (US\$83.0 million) in the second quarter of 2020, decreasing from RMB1,149.5 million in the second quarter of 2019. Net loss from Tantan segment was RMB124.3 million (US\$17.6 million) in the second quarter of 2020, compared to net loss of RMB423.2 million in the second quarter of 2019.

Non-GAAP net income (note 1) was RMB668.9 million (US\$94.7 million) in the second quarter of 2020, compared to RMB1,241.8 million during the same period of 2019. Non-GAAP net income from Momo segment was RMB744.0 million (US\$105.3 million) in the second quarter of 2020, decreasing from RMB1,283.6 million in the second quarter of 2019. Non-GAAP net loss of Tantan segment was RMB70.8 million (US\$10.0 million) in the second quarter of 2020, compared to non-GAAP net loss of RMB49.1 million in the second quarter of 2019.

The Company's proposed repurchases may be made from time to time on the open market at prevailing market prices, in privately negotiated transactions, in block trades and/or through other legally permissible means, depending on market conditions and in accordance with applicable rules and regulations. The Company's board of directors will review the share repurchase program periodically, and may authorize adjustment of its terms and size. The timing and conditions of the share repurchases will be subject to various factors, including the requirements under Rule 10b-18 and Rule 10b5-1 promulgated pursuant to the Securities Exchange Act of 1934, as amended. The Company plans to fund repurchases from its existing cash balance.

Business Outlook

Note 1: Non-GAAP measures

To supplement our consolidated financial statements presented in accordance with U.S. generally accepted accounting principles ("GAAP"), we use various non-GAAP financial measures that are adjusted from the most comparable GAAP results to exclude share-based compensation and amortization of intangible assets from business acquisitions, and tax impacts related to the amortization of intangible assets from business acquisitions.

Reconciliations of our non-GAAP financial measures to our U.S. GAAP financial measures are shown in tables at the end of this earnings release, which provide more details about the non-GAAP financial measures.

Our non-GAAP financial information is provided as additional information to help investors compare business trends among different reporting periods on a consistent basis and to enhance investors' overall understanding of the historical and current financial performance of our continuing operations and our prospects for the future. Our non-GAAP financial information should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to the GAAP results. In addition, our calculation of the non-GAAP financial measures may be different from the calculation used by other companies, and therefore comparability may be limited.

Our non-GAAP information (including non-GAAP cost and operating expenses, income (loss) from operations, net income (loss), net income attributable to Momo Inc., and diluted net income per ADS) is adjusted from the most comparable GAAP results to exclude share-based compensation, amortization of intangible assets from business acquisitions, and tax impacts related to the amortization of intangible assets from business acquisitions. A limitation of using these non-GAAP financial measures is that share-based compensation, amortization of intangible assets from business acquisitions and tax impacts related to the amortization of intangible assets from business acquisitions have been and will continue to be for the foreseeable future a significant recurring expense in our results of operations. We compensate for these limitations by providing reconciliations of our non-GAAP measures to our U.S. GAAP measures. Please see the reconciliation tables at the end of this earnings release.
